BOOK LAUNCH: SEARCHING MYSELF.COM

Union Minister of State for Road Transport & Highways and Civil Aviation, Gen VK Singh launched a book "SearchingMyself.com", written by Dr. Ektu Singh on March 28.

The core idea of the book starts with a question, "what do we want to achieve in our life?" This question has been asked during a discussion among the group of a few youngsters, an IT-Tian, a yoga instructor, a medical student, an MBA, a student in IIA second year and a gynaecologist, she added. The book goes into three segments: first, morning sessions, second, college

campus and third, diary writing by Kundan including the gist of his daily learnings.

According to Ektu, the book is a work of fiction and revolves around the story of a young adult Kundan. But the real objective of the book is to convey messages that have the potential to make life happier and healthier.

Later she added that this book is a must-read for those who dangle between rationality and spirituality, without being able to accept either.
